Portfolio- <https://cloudwithcj.me>

SUMMARY

I'm Chris, currently studying for a Degree in Information Technology passionate about Networking and cloud technologies. I aim to become a Cloud Engineer, and through my studies and hands-on experience, I've gained strong skills in AWS. With a drive to learn and create, I'm eager to contribute my expertise in building highly scalable and highly available architectures.

ACTIVITIES

IT Specialist (Copy Link Ltd-Nairobi): -2023

- Developed Coding and Web development skills in a professional setting
- Worked on cloud technologies and maintained web infrastructure

Tech Group Kenya - Cloud Support 2022 to Present

-Implemented scalable, highly available, and secure cloud architectures following AWS best practices.
-Managed VPC networking, including subnets, routing, security groups, NACLs, VPNs, and load balancers
-Set up and optimized Lightsail-based environments, including WordPress hosting
